

Renegade BBS

- [Prerequisites](#)
- [Renegade BBS](#)
 - [Configuration](#)
- [Tradewars 2002](#)
 - [Installation](#)
 - [Configure Renegade](#)
- [References](#)
 - [Renegade](#)
 - [Trade Wars 2002](#)

Prerequisites

Install Debian 7(Wheezy) or Debian 8(Jessie) i386 architecture:

<https://www.debian.org/releases/jessie/debian-installer/>

Update Package Manager Sources and add contrib. See below:

```
vi /etc/apt/sources.list
```

```
deb http://ftp.us.debian.org/debian/ jessie main contrib
deb-src http://ftp.us.debian.org/debian/ jessie main contrib

deb http://security.debian.org/ jessie/updates main
deb-src http://security.debian.org/ jessie/updates main
```

Install SSHD if not installed via the installer

```
apt-get install openssh-server
```

Enable root login at GUI

```
vi /etc/gdm3/daemon.conf
```

Add AllowRoot=true under the security section

```
...
[security]
AllowRoot=true
...
```

```
vi /etc/pam.d/gdm3
```

Comment out the following line:

```
...
#auth    required      pam_succeed_if.so user != root quiet_success
...
```

Logout and log in using root

Install Subversion

```
apt-get install subversion
```

Checkout BBS package

```
svn co https://svn.jmeham.com:8443/svn/PROJECTS/bbs
```

Install BBS

```
cd bbs  
install.sh
```

Run

```
startbbs  
stopbbs
```

Renegade BBS

With the BBS Running, VNC into the instance at IP:1

Configuration

Configure the BBS for 6 nodes

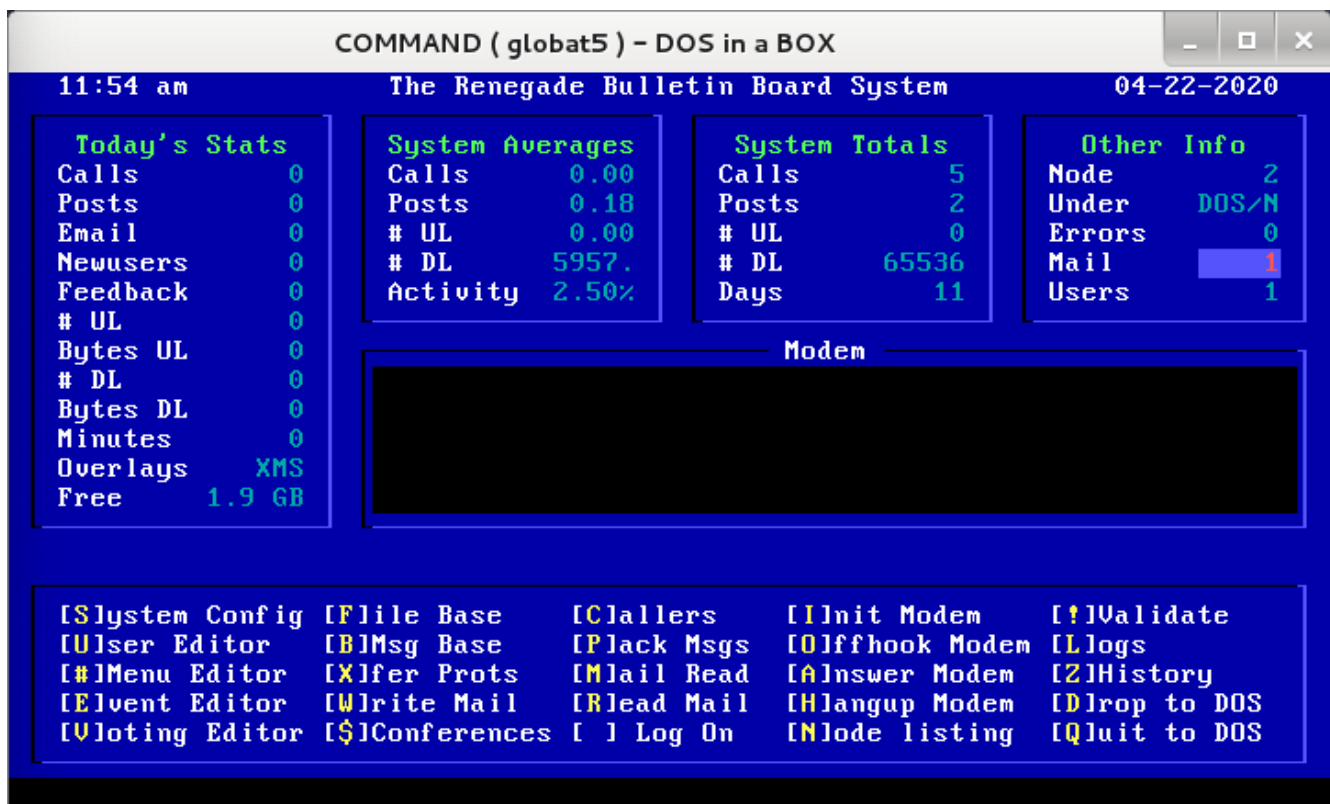

```
echo 6 > /dos/numnodes
```

From an xterm issue the following command:

```
dosconsole
```

From the DosEmu terminal perform the following steps:

```
g:  
cd g:\rg  
renegade -n1 local
```

Select S - System Config

Select A - Main BBS Configuration

```
COMMAND ( globat4 ) - DOS in a BOX

Main BBS Configuration:

A. BBS name/number   : BBS NAME (111-111-1111)

User editor [?=Help]: _

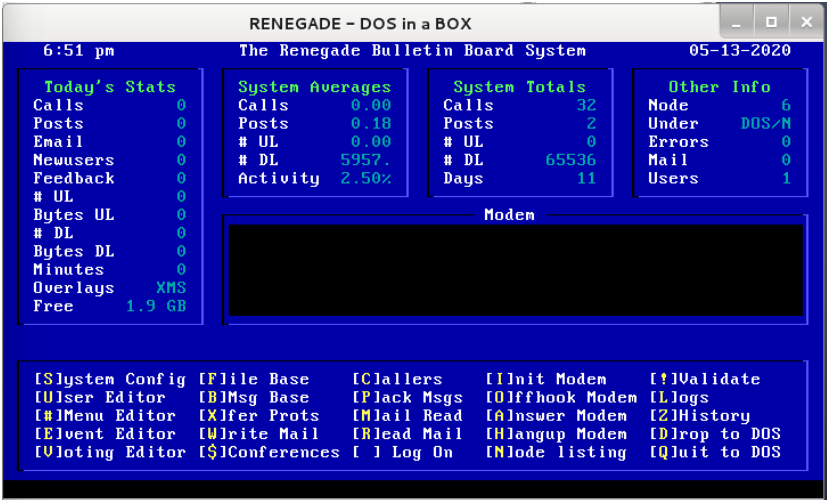

```

Update the SYSOP user.

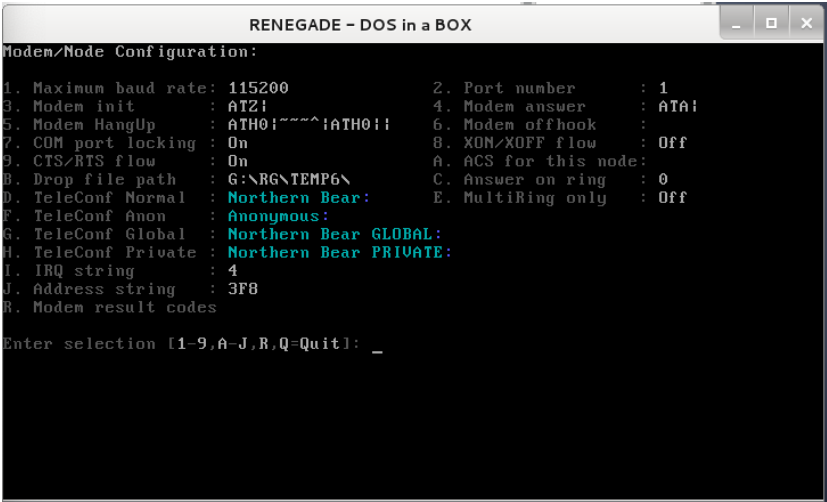

Update the drop file location for all of the nodes

Repeat the following steps for all 6+ nodes from a dosconsole:

```
g:
cd g:\rg
renegade -n<nodeNumber> -l
```

Select S - System Config, then B - Modem/Node Configuration

Update "B - Drop File Location" with the folder

G:\RG\TEMP<nodeNumber>

Installation

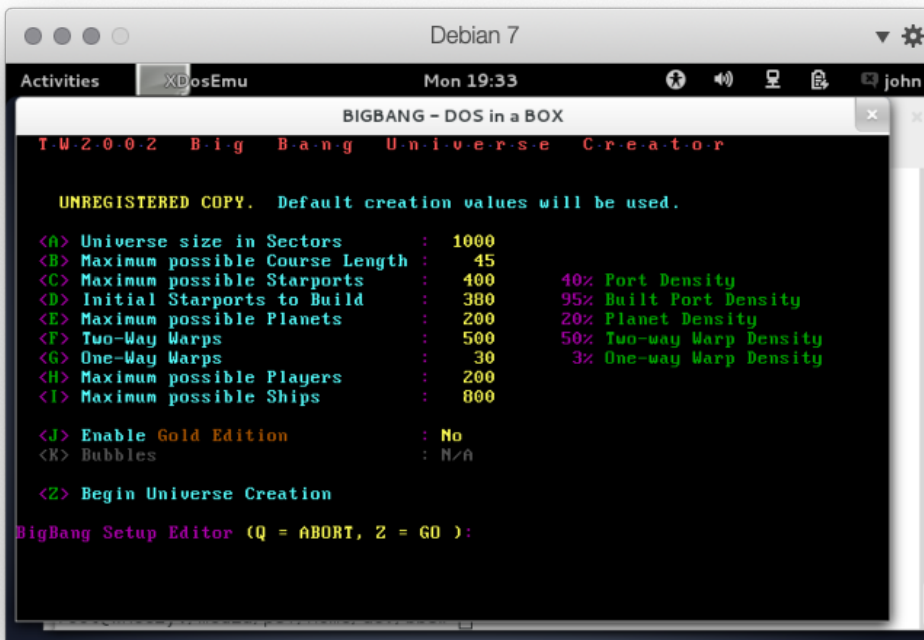

Start by buying a license if you still can.

Start DOSEmu

```
dosemu
```

Install from DOSEMU

```
g:  
cd g:\doors\lw2002  
install.bat
```

If you need to redo the BIG BANG, you will find a file called bigbang.exe in the tradewars folder.

```
bigbang.exe
```

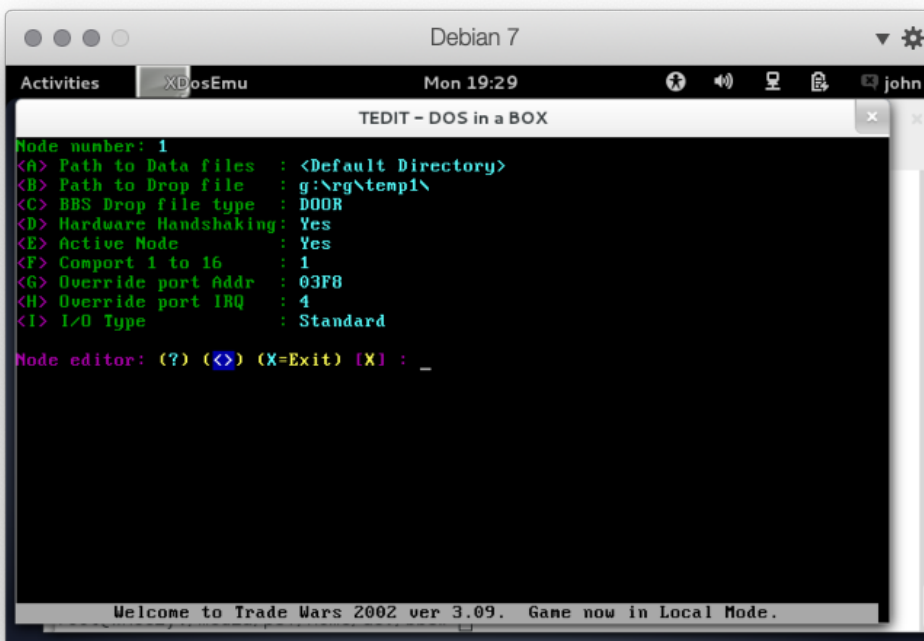

Configure TradeWars

```
tedit.exe
```

Select O - BBS node editor

Update **B** - Path to Drop File and **C** - BBS Drop file type for all of the nodes you are configuring.

Fill in Path to Drop File, Drop file type.

For Node1:

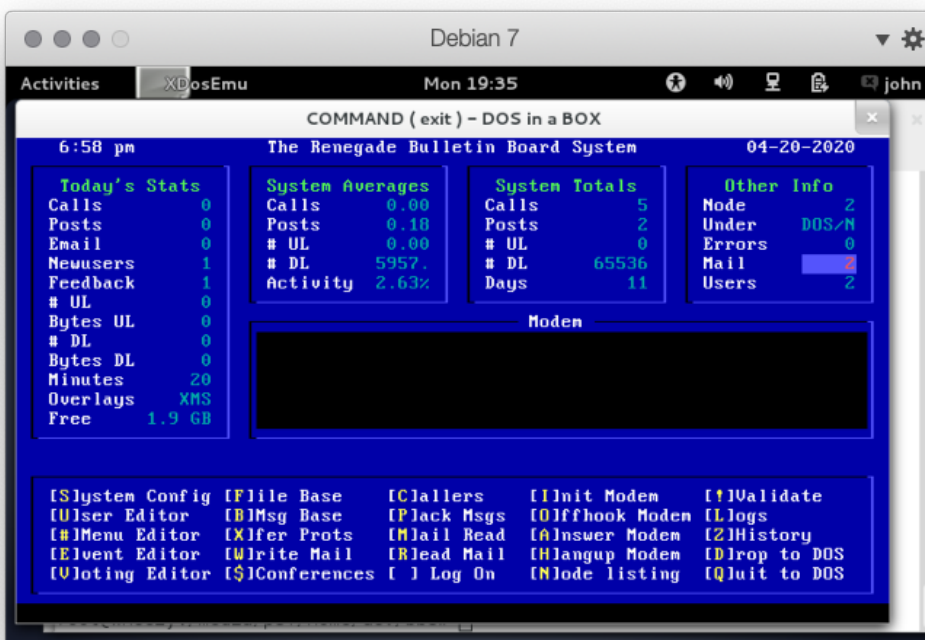

Drop Path	g:\rg\temp1
BBS Drop File Type	DOOR

Configure Renegade

In Renegade, perform the following steps:

Using Dosemu

```
g:
cd g:\rg
local.bat
```

Select # for the menu editor

```
Debian 7
Activities  XDosEmu  Mon 19:36  john
COMMAND (exit) - DOS in a BOX

###:Menu #:Menu name
=====
1      1 Global Menu
2      2 Start Menu
3      3 New User Info Menu
4      4 READP (Message Prompt) Menu
5      5 FILEP (File Listing) Prompt
6      6 Main Menu
7      7 Batch File Menu
8      8 BBS Listings
9      9 Bulletin Menu
10     10 Chat Menu
11     11 E-Mail Menu
12     12 File Menu
13     13 Goodbye Menu
14     14 Message Menu
15     15 MultiNode Menu
16     16 Offline Mail Menu
17     17 Doorgames Menu
18     18 Personal Settings Menu

[Users start at menu number: 2]

Menu editor [?=Help]: _
```

Select M and 17

```
Debian 7
Activities  XDosEmu  Mon 19:36  john
COMMAND (exit) - DOS in a BOX

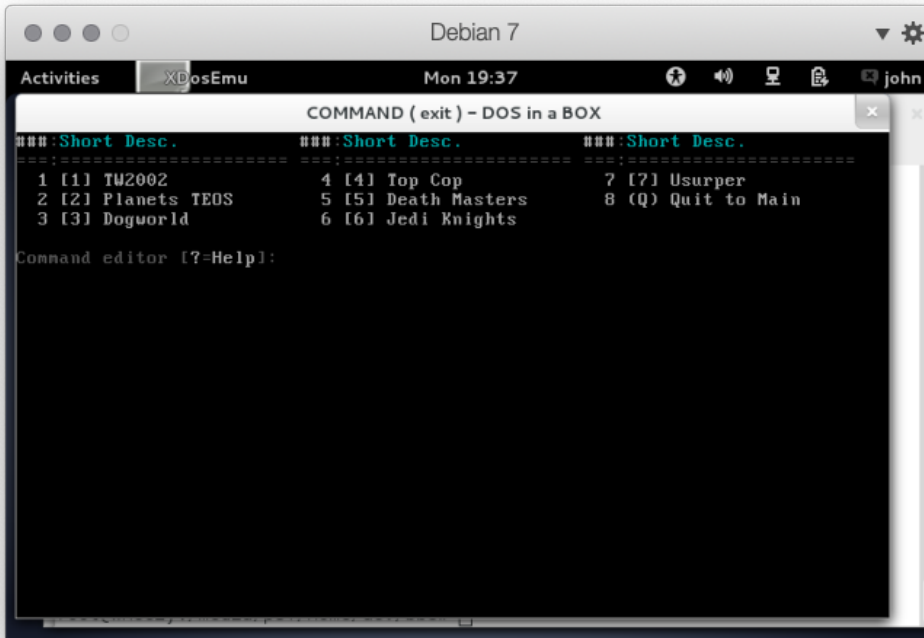

Menu #17 of 26

1. Menu number      : 17
2. Menu titles      : Doorgames Menu
   Menu title #2    : %CL
   Menu title #3    : %dfdoorhdr.ans%
3. Help files       : ONLINE/ONLINE
4. Menu prompt      : Time Left: [%TL] (?=Help)%LFOnline Menu:
5. ACS required     : "s50"
6. Password         : *None*
7. Fallback menu    : 6
8. Forced ?-level   : *None*
9. Generic info     : 3 cols - 4/3/1
N. Node activity    : Online Games
T. Flags            : C-----4-

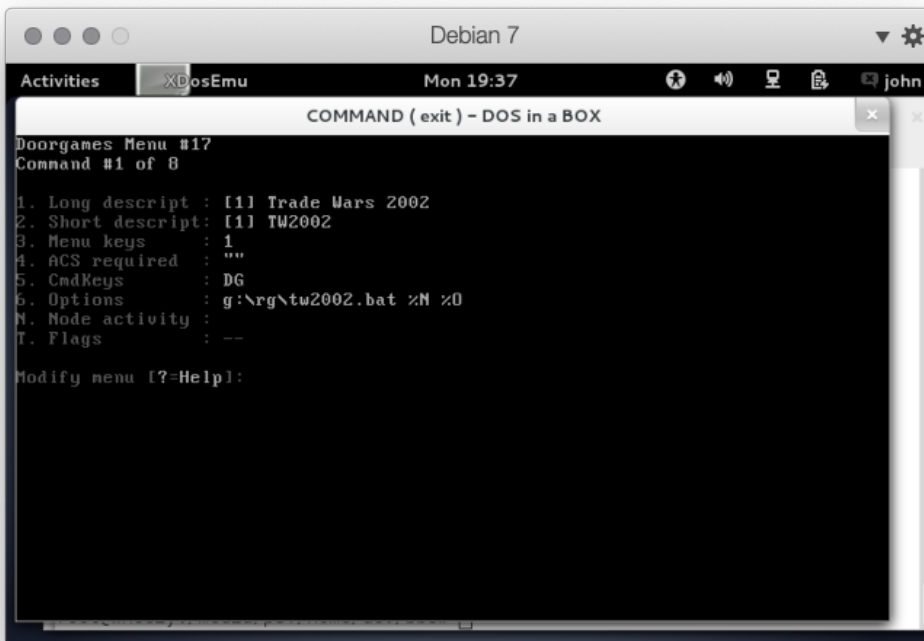

[Commands on this menu: 8]

Modify menu [C=Command Editor,?=Help]:
```

Select C

Select M and 1

Configure like above.

Update the tw2002.bat file

edit tw2002.bat

```
@echo off
g:
cd g:\rd\doors\tw2002
call tw2002.exe TWNODE=%1
rem pause
```

If you are having issues, uncomment the pause to see the error.
