Mount Raspberry Pie Image on Mac

Required Software

Install macFUSE and ext4fuse

Mounting an Image

```
$ hdiutil mount <IMAGE_FILE>

/dev/disk4                  FDisk_partition_scheme
/dev/disk4s1                Windows_FAT_16                          /Volumes/boot
/dev/disk4s2                Linux

$ mkdir ~/Desktop/raspi/

# Mount
$ sudo ext4fuse /dev/disk4s2 ~/Desktop/raspi/ -o allow_other

# Unmount
$ sudo umount ~/Desktop/raspi/
```
